STATE CLEARINGHOUSE

NEWSLETTER

April 16 through 30, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 16 through 30, 2000.**

CLEARINGHOUSE CONTACTS

Please contact the Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613.
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte or Karen Fowler (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available at http://ceres.ca.gov/planning/pub_org.html.

Federal Notices

Intergovernmental Review Notices (April 16 through 30, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Federal Energy Regulatory Commission

TELEPHONE: n/a

ADDRESS: n/a

DESCRIPTION:

On March 6, 2000, Southern California Edison Company filed a request to include a Memorandum of Agreement (MOA) in the license for the Big Creek Project located in Fresno County, California. The licensee is proposing to remove four penstock standpipes that vent the Big Creek No. 3 Powerhouse. FERC has approved the MOA, which contains provisions to document the standpipes according to the Historic American Engineering Record in consultation with the National Park Service.

COMMENT BY: April 30, 2000

AGENCY: Federal Energy Regulatory Commission

TELEPHONE: 202-219-2767

ADDRESS: n/a

DESCRIPTION:

The following clarification should be made on page 12 of the Federal Energy Regulatory Commission staff's Biological Assessment (BA) for the Haas-Kings River Project. Please change "The existing records of the Forest Service indicate that the orange lupine does not occur in the Haas-Kings River Project area within the Sierra National Forest" to "The existing survey records of the Forest Service indicate that the orange lupine has not been found in the Haas-Kings River Project area within the Sierra National Forest. The project area is not within the current known distribution of the species."

COMMENT BY: n/a

AGENCY: Federal Energy Regulatory Commission

CONTACT: Dianne Rodman

TELEPHONE: 202-219-2830

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission has transmitted to the National Marine Fisheries Service (NMFA) their "Biological Assessment of the Effects of Relicensing the Rock Creek-Cresta Hydroelectric Project". FERC requested a response from NMFA regarding endangered species and critical habitat that may be affected by the project. As of April 5, 2000 no response has been received. FERC is now proceeding with the Final Environmental Assessment (FEA) and would like to receive NMFA's findings so they can be incorporated into the FEA.

COMMENT BY: May 5, 2000

AGENCY: Federal Energy Regulatory Commission

CONTACT: n/a

TELEPHONE: n/a

ADDRESS: n/a

DESCRIPTION:

On January 3, 2000, Sacramento Municipal Utility District, licensee for the Upper American River Project, filed an as built drawing of recreational development on the Ice House Reservoir. All of the project's recreational facilities on the reservoir are indicated on the drawing in relation to the project boundary. The as-built drawing conforms to license conditions and has been approved.

COMMENT BY: April 30, 2000

AGENCY: Federal Energy Regulatory Commission

CONTACT: Dianne Rodman

TELEPHONE: 202-219-2830

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission (FERC) has granted an extension of time to March 1, 2000, for the Rock Creek-Cresta settlement group to reach agreement on streamflow recommendations for a new license. FERC has not yet received the agreement. It will continue with the relicensing application, including completion of the Final Environmental Assessment (FEA). Any settlement filed in time will be evaluated as an alternative in the FEA.

COMMENT BY: n/a

AGENCY: Federal Energy Regulatory Commission

CONTACT: n/a

TELEPHONE: n/a

ADDRESS: n/a

DESCRIPTION:

Pacific Gas and Electric Company, licensee for the Drum-Spaulding Hydroelectric project, has requested an extension of time to comply with ordering paragraph ©. This requires the licensee to file, by March 1, 2000, documentation that signs explaining proper waste disposal have been posted at the remote camping areas at Blue Lake and White Rock. The deadline has been extended to December 31, 2000.

COMMENT BY: May 7, 2000

AGENCY: Federal Energy Regulatory Commission

CONTACT: Dianne Rodman

TELEPHONE: 202-219-2830

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission (FERC) has requested a response from the U.S. Fish and Wildlife Service (USFWS) regarding a "Biological Assessment of the Effects of Relicensing the Rock Creek -Cresta Hydroelectric Project." The response was to be given by December 30, 1999; however, FERC still has not received it. FERC will continue with the Final Environmental Assessment and would still like to incorporate the conclusions of USFWS.

COMMENT BY: May 5, 2000

AGENCY: Federal Energy Regulatory Commission

CONTACT: n/a

TELEPHONE: n/a

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission (FERC) dismisses a complaint filed by David Springer against Yadkin, Inc., with respect to dredging operations at Yadkin's licensed Project No. 2197, located on the Yadkin/PeeDee River in North Carolina. Springer argues that the dredging operation is no longer authorized. FERC found no violations to any of its regulations and thus dismisses the complaint.

TELEPHONE: 202-219-2767

ADDRESS: n/a

DESCRIPTION:

On Tuesday, April 18, 2000, the FERC staff will conduct a telephone conference with representatives of the U.S. Fish and Wildlife Service, the Forest Service, and Pacific Gas and Electric Company to assess the Biological Assessment for the Haas-Kings River Project, FERC Docket No. 1988-007. The conference will begin at 10:00 a.m. PDT.

COMMENT BY: n/a

AGENCY: Federal Energy Regulatory Commission

CONTACT: Dr. John M. Mudre

TELEPHONE: 202-219-1208

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission has given notice of a Draft Environmental Assessment (DEA) for a proposed license amendment for the El Dorado Hydroelectric Project (FERC No.184). The proposed amendment would allow for the reconstruction of the project's damaged diversion dam and the replacement of a portion of the project's power canal. The work authorized by the proposed amendment would restore the licensed El Dorado Hydroelectric Project to operation. The Federal Energy Regulatory Commission staff has determined that the proposed amendment would have no effect on the threatened California red-legged frog (CRLF) or other species listed as endangered, threatened, or proposed for such listing under the Endangered Species Act. The restoration of the diversion dam will occur at the same location as the original dam.

ADDRESS: Field Manager
BLM Ridgecrest Field Office (CA-650)
300 South Richmond Road
Ridgecrest, CA 93555

DESCRIPTION:

There is a proposed withdrawal of 22,331.83 acres of public lands in Kern County to protect the Desert Tortoise Natural Area. That area was originally withdrawn, for a term of 20 years, by Public Land Order number 5694, which expired on February 4, 2000. The Bureau of Land Management has determined that the lands should be withdrawn for an additional 20 years, which is the purpose of this proposed action. The notice will close the lands for up to two years from surface entry and mining, subject to valid existing rights. The lands will remain open to the operation of mineral leasing laws and the Materials Act of 1947. Up to 3206.52 acres of non-federally owned lands would be subject to this withdrawal if they are acquired by the United States in the future by exchange, donation, or purchase.

2000041069	Ambassador Campus Development Plan Pasadena, City of Pasadena--Los Angeles The West Gateway Specific Plan EIR (WGSP EIR) is intended to be used for future City discretionary approvals of projects consistent with the WGSP, the base environmental document for the review of projects located within the WGSP area. Such projects are subject to a focused CEQA review which concentrate on impacts specific to that proposed project. The City shall require an Addendum to the EIR, a Mitigated Negative Declaration or the issuance of a Categorical Exemption, as appropriate, for projects consistent with the WGSP which will not result in any significant adverse environmental impacts not previously disclosed by the WGSP EIR. In the instance of this Initial Study, should any significant environmental impacts be identified, a Supplemental EIR (SEIR) will be prepared pursuant to Section 15163 of the CEQA Guidelines. The SEIR will analyze only those environmental impacts which: (a) were not previously addressed in the WGSP EIR and may be significant for the proposed project; or (b) were previously addressed in the WGSP EIR, however, the impacts associated with this project may be of a greater level of severity than anticipated with build out of the WGSP, as documented in the WGSP EIR.	nop	05/16/2000

2000042058	West Dublin/Pleasanton BART Station and Transit Village Bay Area Rapid Transit District Dublin, Pleasanton--Alameda The proposed project would include the completion of construction of the West Dublin/Pleasanton BART Station approved by the BART Board of Directors as part of the Dublin/Pleasanton Extension Project (DPX) on February 8, 1990. The DPX project was evaluated in the December 1989 Dublin/Pleasanton Extension Project EIR (DPX EIR) certified by the BART Board on February 8, 1990. On Dublin parcel, a 240-room hotel and 160-unit residential building are proposed to be constructed. The hotel is proposed to be located closest to the freeway with 240 parking spaces. The residential portion of the development is proposed to be located furthest from the freeway and would include 320 parking spaces located one-half level under the three-story residential building. In addition, a 600-stall parking garage for BART patrons is proposed to be constructed on this parcel. A pedestrian overcrossing would connect the BART parking garage to the BART station.	nop	05/16/2000
1990010510	Playa Vista Interim Flood Control & Surface Water Quality Basin Los Angeles, City of LOS ANGELES--LOS ANGELES The IFCSWQS is proposed to accommodate surface drainage from development proposed within the previously approved First Phase Project area. The IFCSWQS is proposed as an interim use to serve First Phase Project development; specifically, to provide the flood control and surface water quality treatment functions that would otherwise be provided by the Playa Vista Freshwater Marsh that was approved as part of the Playa Vista First Phase Project, but is currently enjoined from construction. The IFCSWQS is designed to discharge stormwater from Area D into a temporary water quality and detention facility in the central portion of Area D. From this facility, stormwater would be discharged either into the Centinela Ditch or the Ballona Channel.	sir	05/17/2000

1998072103	City of Redding General Plan Update Redding, City of REDDING--SHASTA The City of Redding initiated its General Plan Update program in the fall of 1995, when it retained a multidisciplinary consulting team headed by J. Laurence Mintier & Associates to assist the City in its comprehensive update effort. The consultants have interviewed City officials, and the General Plan Task Force held four town hall meetings to identify issues of concern. The City published a Draft Background Report describing existing conditions and trends in Redding in June 1996. The next major step in the update process was preparation of the Issues and Alternatives Report. The purpose of this report was to solicit direction from the Task Force concerning major issues to be addressed in the updated General Plan. The Task Force provided direction after a joint meeting with the Planning Commission and City Council. This direction serves as the policy framework for drafting the new General Plan.	eir	06/05/2000

2000041097	KCBQ Radio Broadcast Facilities San Diego County, DPLU Lakeside--San Diego Salem Communications Corporation has submitted an application for a Major Use Permit from the County of San Diego to construct and operate an AM radio broadcast facility in Muth Valley on a 44.06 acre parcel. The proposed action involves the approval of the Major Use Permit, construction and operation of six radio towers and a transmitter building, and the dedication of biological open space. Each radio tower is proposed to be 199 feet tall, triangular lattice steel construction with a 24 inch wide face. A 16 foot wide access road would provide vehicle access to each tower for construction and maintenance purposes. Buried cables would interconnect the towers along the same route as the access road. The towers would be supported with guy wires anchored to the ground with concrete "deadmen." Each tower would require three deadmen anchors. Each tower would be enclosed within a 40 foot by 40 foot area with a 6 foot high chain link fence topped with barbed wire. Each deadmen would be similarly enclosed with a 6 foot high chain link fence topped with barbed wire surrounding a 20 foot by 20 foot area.	nop	05/19/2000

2000041134	Pala Gaming Facility National Indian Gaming Commission Pala--San Diego The project consists of a 187,300 square foot class III gaming and entertainment facility and associated parking, landscaping, and entrance features on a 24-acre site within the Prea Indian Reservation. Infrastructure improvements include a water storage facility and a sewage collection and treatment system.	ea	05/22/2000
1988051115	Gaviota Oil and Gas Processing Facility Condition R-1 Review Santa Barbara County Santa Barbara--Santa Barbara This document provides a programmatic analysis of various future scenarios for the Point Arguello Project in the absence of a specific application from the operator. The scenarios analyzed include: 1) resumed project operations, 2) partial facility abandonment and 3) full project abandonment. Each of these scenarios is broken down into a number of feasible options, or sub-sets. All of the scenarios are analyzed to determine what the impact levels would be for each one, as compared against the existing Gaviota facility operations, the baseline project. The purpose of the PEIR is to identify for decision makers and the public the environmental impacts associated with each scenario, to determine ways in which such impacts can be mitigated or avoided, and to identify the scenario with the least environmental impacts. The scope of review of this PEIR is restricted to the Gaviota facility and the associated oil and gas transportation pipelines up to the mean high tide line; it does not address the offshore components of the Point Arguello Project (except as they may relate to the onshore facility).	eir	06/05/2000
1998121065	East Pasadena Specific Plan Pasadena, City of Pasadena--Los Angeles The East Pasadena Specific Plan area is located within the City of Pasadena, in the eastern area of the City. The City of Pasadena is located in Los Angeles County within the western San Gabriel Valley, approximately 10 miles northeast of downtown Los Angeles. The approximately 260 acre Specific Plan area is located in eastern Pasadena. The area serves as an entrance gateway to Pasadena from the east along the Foothill (I-210) Freeway, Foothill.	eir	06/05/2000

2000041120	Old Salinas River Channel Dredging Monterey County Water Resources Agency --Monterey Removal by dredging of approximately 15,000 cubic yards of silty mud deposited during 1998 El Nino disaster.	neg	05/23/2000
2000041123	Wm. Bolthouse Farms Inc., Bakersfield Carrot Processing Reg WQCB #5 (Central Valley), Fresno Bakersfield--Kern Wm. Bolthouse Farms Incorporated (hereafter Discharger) owns and operates a carrot processing plant, located off Highway 58 approximately seven miles east of the City of Bakersfield in Kern County. Waste Discharge Requirements (WDRs) Order No. 96-011 currently regulates the facility and limits discharge flow to 1 million gallons per day (mgd) to 1487 acres of farmland (hereafter designated disposal area) owned by the Discharger. The Discharger proposes to increase the wastewater discharge to 8 mgd from its Bakersfield Carrot Processing Plant (hereafter facility).	neg	05/23/2000
2000041124	Wm. Bolthouse Farms Inc, Buttonwillow Carrot Processing West Plant Reg WQCB #5 (Central Valley), Fresno Bakersfield--Kern Buttonwillow in Kern County. The Discharger acquired the facility from Golden Valley Produce LLC in February 1999. Waste Discharge Requirements (WDRs) Order No. 98-156 currently regulates the facility and limits discharge flow to 1.67 mgd. The Discharger proposes to increase wastewater discharge to land from 1.67 million gallons per day (mgd) to 5.3 mgd from its Buttonwillow Carrot Processing West Plant (hereafter facility). The facility structure covers 100,000 square feet and processes organic carrots. The facility also includes 540-acres of discharger owned designated disposal area for effluent disposal in Section 18, Township 29 south, Range 25 east, MDB&M.	neg	05/23/2000
2000041125	Queststar Petroleum Corporation and Rossini Farming Co. Inc, Land Treatment Site Reg WQCB #5 (Central Valley), Fresno Bakersfield--Kern Queststar Petroleum Corporation (Queststar) proposes to discharge to land up to a maximum of 8,400 gallons per day (gpd) of treated oil production wastewater (produced water) on property adjacent to an oil production facility (facility) owned by Queststar. The maximum facility discharge would occur only when all 21 oil wells at the facility would be operating. However, the average produced water discharge from the facility is currently 2,520 gpd and is disposed of by an injection well (No. 568-35). The injection well discharge is regulated by permit No. 029-10950, issued by the California Division of Oil, Gas, and Geothermal Resources (DOGGR).	neg	05/23/2000

2000042089	Smith River Rancheria - Use Permit UP0032C Del Norte County Planning Smith River--Del Norte Use Permit for a Public Use for construction of a 6,000+/- square foot, by 20 ft., 4 inch high, day care facility with educational uses and kitchen/dining facilities and supporting office area. Also proposed is construction of a parking facility on-site, and an on-site septic system.	neg	05/23/2000
2000042090	JFK Memorial Park Trail Napa, City of Napa--Napa 0.6 mile bicycle path in public park; 14-ft trailbed with 10-ft asphalt surface and 2-ft shoulders on either side. The proposed project is a 3,290 linear-foot segment of paved surface, shared-use trail for bicyclists and pedestrians. Located within JFK Memorial Park, the trail extends from highway 121 to a point west of the Duck Pond in the Park. The trail design is consistent with that proposed and adopted as part of the Kennedy Park Master Plan. The total 14-ft. trailbed sections reflect a 10-ft. width for bicycles, with centerline pavement markings. There are 2-ft. shoulders on either side of the trail, one side to be used by joggers and walkers, and the other to provide a 2-ft. separation between the trail and vegetation. Materials consist of a 2-inch asphalt paving area over a 4-in. compacted aggregate sub-base. The maximum grade than one-half inch in diameter will be pruned where same extends into the trailway.	neg	05/23/2000
2000042091	Live Oak High School Modernization Morgan Hill Unified School District Morgan Hill--Santa Clara A variety of renovations and improvements are proposed for the existing Live Oak High School. New construction includes the building of a new practice gymnasium, an addition to the library, a covered outdoor dining area, two new outdoor pools and new amphitheater. Upgrades to the football stadium include the replacement of existing seating with new bleachers, the building of a new press box with a public address system, the construction of an all-weather track, and the replacement of lighting. Two new parking lots will be constructed. The courtyard and landscaped areas throughout campus, as well as the interior and exterior of most buildings will be renovated. The agriculture program will be relocated to the new high school when the high school when the high school is built.	neg	05/24/2000
2000042092	Lake Cunningham Park Overflow Parking Lot (PP99-10-199) San Jose, City of San Jose--Santa Clara Construction of a parking lot on 4.5 acres. The construction is limited to grading and hydroseeding of the site it does not include paving or lighting.	neg	05/23/2000
2000042093	Del Norte County Gravel Mining Environmental Review - Various Projects Del Norte County Planning Smith River, Fort Dick--Del Norte The Smith River is located in northern Del Norte County and is designated as a Federal Wild and Scenic River. The lower Smith River is defined as the 13.8 miles of stream from the Hiouchi Bridge to the mouth of the river. A habitat from the Highway 101 bridge to the estuary. The delineation resulted in corresponding zoning designations that identify the Riparian and Estuary (river channel) habitat of	neg	05/23/2000

	the lower river. Although this designation amended the zoning for only the area below the 101 bridge, the area from 101 bridge to Van Deventer Park to the 101 Bridge is controlled by bedrock and depositions of sand and gravel. The area below the 101 bridge crosses the Smith River floodplain. The lower river is controlled for much of the stretch for flood control purposes. Levees exist on both the north and south banks of the river, although they are not continuous to the entire stretch of river.		
2000042094	Quarry Excavation No. Qx 96-1 Revisions to Approved Actions San Joaquin County Tracy--San Joaquin Revisions to approved actions for an approved Quarry Excavation. Revisions include community development departments conditions I.n. and I.u. which will revise the excavations phasing and revise the location and design of the settling ponds to include an above ground alike to store pond water above present ground-level. Also included in the revision are public works conditions 2.a.1, 2.c., 2.d. and 2.q. regarding accss and road bond issues.	neg	05/23/2000
1999091111	Museum Zoning Amendment and Lux Art Institute Encinitas, City of Encinitas--San Diego The City proposes to amend their Zoning Ordinance to create a new overlay zone which would allow a museum use within R-1 and R-3 zones on 4 areas near southern El Camino Real. The project also includes the Lux Art Institute within a portion of this area, which proposes 1 single family residence, an art museum, outdoor viewing area and supporting infrastructure.	nop	05/23/2000
2000041121	Liberty Canyon Residential Project Los Angeles County Agoura, Calabasas--Los Angeles The project applicant proposes to develop approximately 119 single-family residential units on approximately 171 acres. Portions along the western property boundary are to be preserved as open space and a permanent wildlife corridor. The project also includes a 12+- acre school site for the Las Virgenes Unified School District, and approximately five acres for public parks. It is estimated that the total grading for the project will exceed 1.25 million cubic yards. Exact grading quantities will be determined upon completion of the grading plan, which will be submitted with the tentative map.	nop	05/23/2000
2000041122	Santiago Hills II General Plan Amendment, Zone Change, Annexation Agreement and Tentative Tract Map Orange, City of Orange--Orange The majority of the project site was previously addressed in Final Environmental Impact Report (EIR) 1278 for the EOGP. The project is currently designated on the Land Use Element (LUE) of the EOGP for public facility, mixed use, employment, low medium density residential, medium density residential, and open space. The project would amend the (LUE) to permit general commercial, low density residential, low-medium density residential, medium density residential, and open space. The study area would be zoned Planned Community (PC). Because of the limited nature of the project, some provisions of the EOGP	nop	05/23/2000

	would not pertain to the Santiago Hills II area. Table 1 provides a comparison of the existing General Plan designations and the proposed General Plan designations. The existing and proposed land use designations are graphically depicted in Exhibits 3 and 4, respectively.		
2000042087	Tri-Valley 2002 Capacity Increase Project Public Utilities Commission Pleasanton, Dublin, Livermore--Alameda, Contra Costa Pacific Gas and Electric Company (PG&E) has filed an application for a Certificate of Public Convenience and Necessity (CPCN) to the California Public Utilities Commission (CPUC) for the proposed Tri-Valley 2002 Capacity Increase Project. According to PG&E, the proposed project is needed to meet the projected electric demand in the cities of Dublin, Livermore, Pleasanton, and San Ramon, and in portions of unincorporated Alameda and Contra Costa Counties adjacent to these cities. New transmission and distribution facilities are needed to serve existing and approved development in the Tri-Valley area. The major elements of PG&E's proposed project include two phases: Phase 1 is proposed to be built in late 2001 and completed in early 2002 and Phase 2 would be built between 2004 and 2007, depending on the location and timing of future development.	nop	05/23/2000

1990030443	Windsor Cumulative Drainage Impact Mitigation Program Update Windsor, City of Windsor--Sonoma The proposed Windsor Cumulative Drainage Impact Mitigation Program Update is a program of flood control measures intended to mitigate cumulative drainage impacts resulting from development in the Windsor Planning Area. The proposed project is an update of the existing drainage program that was established in 1992. Proposed flood control measures would reduce flood hazards by providing facilities (e.g., bypass channels and conduits and detention basins) to carry and store flood waters to reduce the likelihood of creeks from overflowing their banks, and by acquiring overflow easements in area with little or no development.	nod	
1996051053	UNOCAL/GUADALUPE OIL FIELD San Luis Obispo County GUADALUPE--SAN LUIS OBISPO California Department of Fish and Game is issuing a California Incidental Take Permit ("Permit") pursuant to Section 2081 of the Fish and Game Code to the project applicant, Union Oil Company of California; dba UNOCAL. The applicant proposes to remediate hydrocarbon plumes and sumps and remove pipelines and other unused surface facilities throughout the former Guadalupe oil field as described in the Project Summary section of the permit ("project").	nod

1997052029	Baily Road Bridge Replacement Contra Costa County CONCORD--CONTRA COSTA The project calls for the replacement of a deteriorating two lane bridge with a new bridge 32 feet wide by 40 feet long. New abutments will be constructed outside the creek banks (the existing abutments will remain). During construction a temporary crossing will be built approximately 16 feet downstream. Provisions are included to minimize any impacts on red legged frog and California tiger salamander which may be present in the vicinity.	nod	
1997102011	Circle "E" Ranch Residential Subdivision San Ramon, City of SAN RAMON--CONTRA COSTA The applicant proposes to build an arch culvert bridge over Oak Creek in San Ramon, Contra Costa County. The proposed bridge is part of the 152 unit Circle E Ranch Residential Subdivision.	nod	
1998021101	Bostonia Church of Christ Major Use Permit Modification San Diego County, DPLU The project proposes to Rezone a 0.62-acre parcel from RV15 (Variable Family Use Regulations, 15 dwelling units per acre) to S86 (Parking Use Regulations). This parcel will be used to provide off-street parking for the Bostonia Church of Christ on the opposite side of Sumner Avenue. This change is pursuant to condition A.4 of the Major Use Permit as modified on November 5, 1998.	nod	
1999032091	Murrish Final Map Subdivision, Coastal Development Permit, Conditional Use Permit and Special Permit FMS-98-03/CUP-98-13/SP-98-2 Humboldt County Planning Department A Final Map Subdivision of an 11 acre parcel into 6 parcels ranging in size from 1.1 acres to 2.3 acres. The proposed project includes a Conditional Use Permit for a multi-screen movie theater with up to 990 seats, the development of about 10,000 square feet of retail space, and about 650 parking spaces. The parcels will be provided with full urban services. A Special Permit is requested to establish the required number of parking spaces based on levels of anticipated use. A Coastal Development Permit for the project includes off-site drainage improvements that may be required as mitigation for the project on APN 508-071-36.	nod	
1999092080	Lower West Side Wetland Restoration Project California Tahoe Conservancy Tahoe Keys (subdivision)--El Dorado The proposed restoration project consists of the excavation, fill removal, grading, recontouring, and revegetation of an approximately 23-acre area near the mouth of the Upper Truckee River for the purpose of returning the area to a functioning wetland and floodplain that is analogous in topography, hydrology, and wetland habitat values to the existing wetlands immediately east of the Upper Truckee River. Other objectives of the project are to create and enhance wildlife habitat, and to create variety of wetland plant communities including upland, willow-wet meadow, transitional meadow, wiregrass wetland, lagoon, and other similar habitat types. The project also includes the re-establishment of the existing public access to Lake Tahoe along the westerly side of the project area, repair of local roadways used for soil transport, and the possible limited use of local borrow pits for disposal	nod

2000041126	<p>Sheffield Reservoir Water Quality and Open Space Project Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The project involves the demolition of Sheffield Reservoir, dam, and the 39,000 square foot Sheffield Treatment Building. Two 6.5-million gallon buried reservoirs will be provided along with a new 900 square foot control building and other minor above ground facilities (vents, etc.). A temporary 3-million gallon aboveground water storage tank(s) will be placed near the Firescape Garden during construction, then will be removed once the reservoirs are operational. A landscaped open space will be provided over the buried reservoirs. The open space will be used for activities including hiking, dog walking, art classes, bird watching, etc. A small ten-space parking lot will provided. A small restroom and up to four (4) individual picnic tables may be provided in the future, if needed. A helipad will be provided for fire fighting activities. The helipad is located over the possible future location of a third buried reservoir is not a part of this application. The existing Firescape Garden, which demonstrates fire-resistant native landscaping, will be retained. The existing Canine Training Area will be relocated offsite during construction, then will be re-established in approximately the same area where it now exists. The project would require approval of a Conditional Use Permit for a quasi-public use in any zone.</p>	nop	05/24/2000
2000041129	<p>Cabrillo Business Park Santa Barbara County Goleta--Santa Barbara</p> <p>To retain seven of the ten existing buildings onsite as well as the existing screened storage area, to demolish the remaining three buildings, and to build twelve new structures. The proposed buildings would total 792,900 sf and the existing buildings being retained would total 237,675 sf, for a total of 1,030,575 sf onsite. The proposed buildings would include research and development and business/self-storage uses.</p> <p>Of the area of the new buildings to be installed, 202,900 sf would be self storage and 590,000 sf would be research and development uses. Approximately 10,000 square feet of the research and development area of proposed Building 2 would be used for onsite service-related uses (i.e., coffee shop, delicatessen, ATM, cleaners, etc.). Parking spaces would include 1,054 existing spaces and 1,245 new spaces for a project total of 2,299 parking spaces. The applicant estimates that approximately 2,300 people would be employed onsite. In addition to standard landscaping amenities, the plan includes a substantial greenbelt area. Proposed passive and active recreational amenities would include benches, tables with inlaid chess and backgammon boards, a bocci ball area, jogging trails, nature trails, horseshoe pits, and volleyball and other court facilities. Bicycle racks, bicycle lockers and shower facilities would be included as well.</p> <p>The applicant proposes 110,000 cubic yards (cy) of cut and 110,000 cy of fill to be balanced onsite. No export of material is proposed. Proposed traffic improvements include signals and turn lanes at site ingress/egress areas located off both Los Carneros Road and Hollister Avenue, as well as on a future extension of Phelps Road to Los Carneros Road. Roadway dedication for the Phelps road</p>	nop	05/24/2000

	<p>extension from its cul-de-sac in the Storke Ranch development through the project to Los Carnes Road as a public road would be granted to the County and a permanent dedication of development rights for 17 acres of wetlands and greenbelt buffer areas would be made. A Class I bike path would parallel the Phelps Road extension on the southern portion of the site. Upgrade of a bus stop along Hollister Avenue and installation of a bus stop on Los Carneros Road are also proposed.</p> <p>Development would be phased over a period of ten to 15 years. Each of the nine proposed phases could involve construction of approximately 100,000 to 150,000 sf of buildings coverage per year or as allowed under the GGMO. Roadways, water, sewer and other utilities would be developed as needed for each phase. A Tentative Tract Map (TM 14,518) to subdivide the site, currently one parcel (APN 073-450-05), into 20 individual parcels, with five of the parcels in recreational/infrastructure uses (i.e. open space, green belts, roads and sidewalks). In addition, there are five access easements to accommodate those parcels without street frontage.</p>

2000048227	Everett Middle School Modernization San Francisco Unified School District --San Francisco This project consists of interior building improvements including painting and floor finishes; accessibility upgrades; plumbing upgrades; and technology upgrades. Other significant building improvements include roof replacement and window replacement. The purpose of this project is to improve the educational environment of a school facility and to improve accessibility. Beneficiaries include those students, teachers, and staff who will enjoy the results of these improvements over a period of several years.	noe	
2000048228	Francisco Middle School Modernization San Francisco Unified School District --San Francisco This project consists of interior building improvements including painting and flooring; accessibility upgrades; plumbing upgrades; and technology upgrades. Other building improvements include classroom rehabilitations at various locations throughout the school building. The purpose of this project is to improve the educational environment of a school facility and to improve accessibility. Beneficiaries include the students, teachers, and staff who will enjoy the results of these improvements over a period of several years.	noe	
2000048229	Lowell High School Modernization San Francisco Unified School District --San Francisco This project consists of the demolition and replacement of portable classrooms that are over 20 years old. The project will also involve various improvements to one of the facility's permanent buildings, and accessibility improvements throughout the permanent buildings. Improvements include new flooring, doors, and walls, new fire alarm system, electrical upgrades, and some new cabinetry. All improvements, including new construction, will take place on the existing school-grounds. The purpose of this project is to remove deteriorated portable classrooms, and to provide permanent classrooms that meet the educational needs of the academic program. Beneficiaries include the students, teachers, and staff who will enjoy the results of these improvements over a period of years.	noe
